**Comparative Study of Codes
(Standards / Guidelines)
of Ethics (Conduct / Practice)
of Computer Societies**

Annex: Detailed Tables

*Marie d'UDEKEM-GEVERS
and Jacques BERLEUR*

1. Comparison of Codes (Standards / Guidelines) 'sensu stricto'

N.B.:

- The detailed tables include references which allow the reader to find directly, in the code itself, the excerpt concerned.
- Question marks inside tables indicate ambiguity.
- The CEPIS code and the SEARCC Guidelines are addressed to Computers Societies. Only in these cases (and in the Draft Code of Sackman, which is not recognised by a computer society) the addressees of codes / guidelines are different from the subjects of rules in these codes / guidelines!
